PRODUCT #2 - TEACHER TRAINING

In this activity, 3 teachers from each institution will travel to Greece to attend a Circular Economy training course. They will be joined by an expert from the academy who will help them develop the curriculum and train them to teach Circular Economy to children:

- Content;
- Methodologies;
- Strategies;
- Activities;
- Projects.

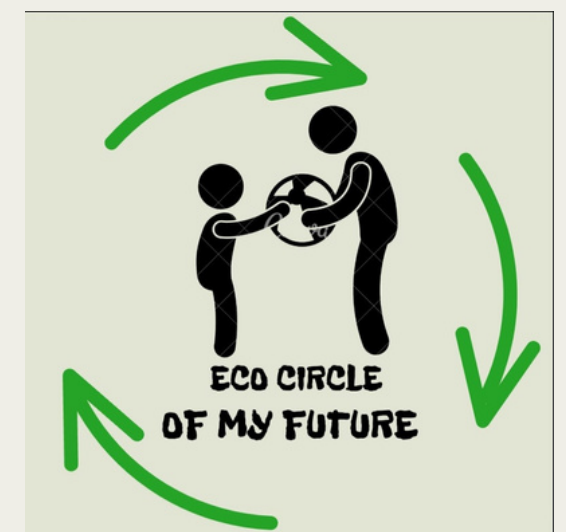

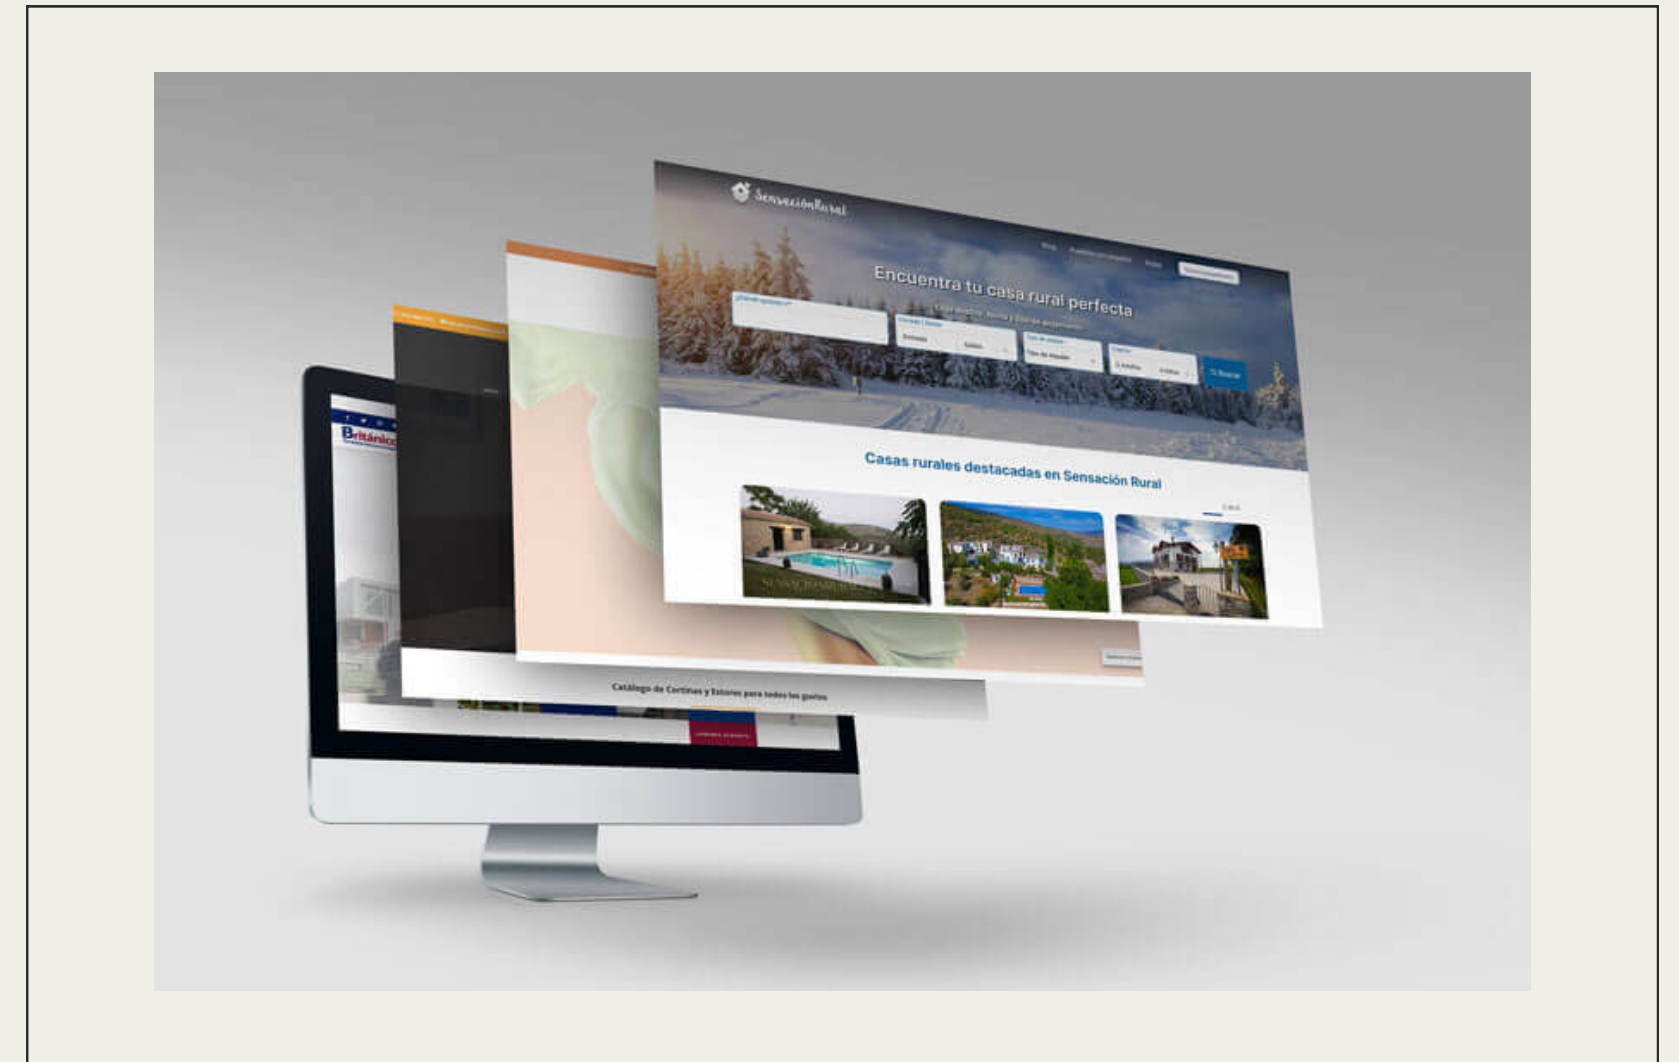

This information will be included in a PDF document that will be translated into all the languages of the partnership.

PRODUCT #3 - WEB PAGE

The website will be used as a tool to publicise the project, allowing all the activities carried out to be recorded.

It will be used to share the Circular Economy curriculum with teachers and the general public so anyone who wants to, can use the material produced.

Thank you!
